

Yahir Alberto Diaz Gonzalez

Full-Stack Developer - Business Automation & ERP Integrations

Cuernavaca, Morelos, Mexico | +52 727 108 3065 | yahir.dev13@gmail.com | github.com/yahirdev13 | linkedin.com/in/yahirdev13 | Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer with 3 years shipping production software. Specialized in **complex ERP integrations and business automation** - author of **SageConnect** (SAGE 300 ↔ Focaltec sync that eliminated **95% of operational load** in CFDI reconciliation). Modern stack: Next.js 15, React 19, TypeScript, Node.js, PostgreSQL. **6+ projects in production**.

CORE COMPETENCIES

ERP Integrations (SAGE 300, Odoo XML-RPC)

CFDI / SAT Automation

Multi-tenant SaaS

REST APIs + Webhooks

LLM / AI Assistance

Next.js + React in Production

PostgreSQL / SQL Server

DevOps (Docker, PM2, Vercel)

WORK EXPERIENCE

Tersoft

December 2024 - Present

Full-Stack Developer

Cuernavaca, Mexico

- Built **SageConnect**: bidirectional SAGE 300 ↔ Focaltec sync that eliminated manual CFDI and PO reconciliation - **95% reduction in operational load**, zero manual data entry.
- Customized Odoo (SaaS/Odoo.sh) across Sales, Accounting, Inventory, CRM and Projects. Case studies: **Innova** (72% error reduction, 85% process automation, 60% less billing time) and **Belle & Health** (80% inventory error reduction, 90% automated uploads, 65% time reduction).
- Implemented internal quoting tool with Gemini AI, dynamic multi-currency pricing logic and automatic PDF generation - quote time **from 45 min to under 5 min (-80%)**.
- Standardized Odoo.sh deployments for new client onboarding, reducing rollout **from weeks to days**.
- Delivered 15+ custom developments for clients in manufacturing, distribution, retail, construction, logistics and healthcare.

Stack: Node.js, Python, Odoo XML-RPC, MSSQL, REST APIs, PM2, Windows Server

Jardines de Mexico

May 2023 - September 2023

Web Developer

Morelos, Mexico

- Built electronic invoicing system (CFDI 4.0) with React and Node.js, **eliminating manual billing errors** and centralizing invoice generation in a web interface.
- Integrated real-time reporting for the administrative team, replacing manual Excel-based processes and accelerating monthly accounting close.
- Delivered the full system in 5 months as the **sole developer responsible** for the project.

Stack: React, Node.js, JavaScript

FEATURED PROJECTS

SageConnect - Multi-tenant ERP Automation

In production

Bidirectional sync engine **SAGE 300 ERP ↔ Focaltec** that automates the full lifecycle of CFDIs, purchase orders, payments and complements. **Multi-tenant** architecture with synchronization every 15 minutes. Impact: **95% reduction in operational load**, zero manual data entry, full elimination of manual reconciliation between the ERP and the supplier portal.

Stack: Node.js 18, Express, MSSQL, Focaltec REST API, Gmail OAuth2

Cardeal - Car Rental Platform

In production

End-to-end car rental platform. Connects three external APIs in parallel: vehicle availability (TSD XML), payments with webhooks (Flap Gateway) and automatic confirmation via PDF + unique QR per booking.

Stack: Next.js 15, React 19, Material-UI v6, MongoDB, TSD XML API

Tersoft Cotizador - AI-powered Business Tool In production

Internal quoting tool with AI: real-time pricing via Odoo XML-RPC, Gemini AI assistance, PDF generation (jsPDF), Google Sheets logging and automated email delivery with Nodemailer.

Stack: Next.js 15, React 19, Material-UI v7, Odoo XML-RPC, Gemini AI, jsPDF

TECHNICAL SKILLS

Frontend: TypeScript, React, Next.js, Vue.js, Tailwind CSS, Framer Motion, Material UI, Figma

Backend: Node.js, Express, Fastify, Spring Boot, Python, Stripe

Databases: MongoDB, PostgreSQL, MySQL, SQL Server, Firebase, Redis

Cloud & DevOps: AWS, Docker, Vercel, Git, GitHub, Linux, PM2, Postman

AREAS OF EXPERTISE

- ▶ **ERP Automation** - SAGE 300, Odoo, CFDI 4.0, XML-RPC, Odoo.sh
- ▶ **Multi-tenant SaaS platforms** - Tenant isolation, Stripe, Docker
- ▶ **Complex API integrations** - XML, REST, OAuth2, Webhooks
- ▶ **AI-powered internal tools** - Gemini AI, pdf-parse, jsPDF
- ▶ **Custom web applications** - Dashboards, admin panels, portals

EDUCATION

Software Development & Management Engineering - [Universidad Tecnologica Emiliano Zapata \(UTEZ\)](#) 2021 - April 2025

Morelos, Mexico. Full-stack training: analysis, design, implementation, testing and deployment. Agile methodologies (Scrum), systems architecture, design patterns, REST APIs, AWS and cybersecurity (OWASP).
